

## Camp Enterprise

July marked the 14th annual Camp Enterprise program. The camp, which had two separate but identical sessions and 200 students overall, began with a day-long program at Wayne State University and concluded with a four overnight days at Michigan State University. The camp helps students prepare for college, all while developing professional skills and encouraging teamwork through its business plan competition.

Participants of Camp Enterprise had the opportunity to go on campus tours, meet with university admissions officials, explore their college and career options, and learn entrepreneurial skills from business professionals.

The camp culminated in a business plan competition, which students spent the day prior developing. The students presented their plans to a panel of judges comprised of community business leaders and the best three teams were chosen.

Both sessions of Camp Enterprise were a great success. For more information, go to [www.newdetroit.org](http://www.newdetroit.org). We're already looking forward to next year!

## Youth Leadership Institute on Race
